

## SPREADING SCENARIOS MASTER IN MANAGEMENT 2022-2023

Do you want to spread your study over more than one academic year? That is possible! In this document you will find some spreading possibilities. It is also possible to create your own study path, as long as you take into account the [corequisites](#).

All classes are organized between 6pm and 10pm and occasionally on a Saturday before noon. For more information on the programme design, check [the programme webpage](#).

Do you have questions or would like to receive some advice? Do not hesitate to contact your [study path counsellor](#).

### IMPORTANT

1. All the courses of the preparatory programme take place in the first semester only.
2. You are allowed to follow the preparatory programme and master programme at the same time.
3. The courses indicated in orange are the **preparatory courses**. The courses in blue are the **master courses**.
4. Students who already have a master's degree do not have to follow the preparatory course 'Research Methods for Business'. If this is your case, you can ignore this course in the following scenarios.
5. Non-EEA students have less flexibility in spreading their courses. You are required to be registered for at least 54 credits in year 1 and at least 25 credits in year 2.

## SPREADING SCENARIO 1: 2 ACADEMIC YEARS (VERSION 1)

All the courses of the **preparatory programme** and the **master programme** in 4 semesters. In semester 1 you only take up courses of the preparatory programme.
