THINKING OF A VUB-BUSINESS TRIP?

Follow the ABC Travel Policy: think before you travel and take the train if possible!

- Avoid non-essential trips
- Book an alternative, travel by bus or train if shorter than 6h
- Compensate your impact of flying, by a CO2 contribution

Planning your trip? Use the VUB Travel Agency!

Book, compensate and manage your trips on the VUB travel platform

Offset your CO2 emissions via efficient cookstoves in Ghana

All VUB business flights/year compensated = 1000 cookstoves = 110K trees saved
