

## ENROLMENT REQUIREMENTS EDUCATIONAL SCIENCES

To be allowed to follow a course, you sometimes have to meet certain registration requirements. These requirements are defined in terms of pre- and/or core requirements. The requirement can be of a blocking or advised nature. There are 2 types of registration requirements in this master:

1. Blocking prerequisite
2. Advised prerequisite

Below you will find the meaning of the different types of registration requirements. View the specific enrollment requirements for your study program on this page.

### BINDING PREREQUISITE

Due to certain risks and safety issues, you can only enrol in course X if you have passed, been exempted from or deliberated for course Y. It is not possible to register for courses if you do not meet the binding prerequisite.

### ADVISORY PREREQUISITE

The curriculum council strongly recommends that you only enrol in course X if you have taken course Y. Although this prerequisite is not binding and it is possible to register for course X without having taken course Y, it is your own responsibility not to follow the programme's advice. This means that you do not have the required competencies.

### BINDING COREQUISITE

You can only enrol in course X if you are also simultaneously registered for (or have already passed/been exempted from) course Y. In order to achieve the learning results of course X in a safe/good way, a registration for course Y is necessary. It is not possible to register for courses if you do not meet the binding corequisite.

### ADVISORY COREQUISITE

The curriculum council strongly recommends that you only enrol in course X if you are simultaneously registered for (or have already passed/been exempted from) course Y. Although this corequisite is not binding and it is possible to register for course X without simultaneously taking course Y, it is your own responsibility not to follow the programme's advice. This means that you do not have the required competencies.
