

## EINDVERHANDELINGEN GGS SPORTKINESITHERAPIE

### *1999-2000*

PATERNOSTER Kathleen	Eating disorders among semi-professional and professional dance students.	P. Clarijs M. Hebbelinck
----------------------	---	-----------------------------

### *2000-2001*

CUMPS Elke	Basketball injuries a prospective epidemiologic study among 14 belgian competitive senior teams.	Prof. Dr. R. Meeusen
FRAMHOUT Laurence	The influence of cryotherapy on pain and inflammation following arthroscopy of the shoulder.	Prof. Dr. R. Meeusen
KEMPENAERS Farid	Physiological contribution to the E-project. Electric two-wheelers on urban roads.	

### *2002-2003*

BEIRNAERT Antje	Training diary for judoka analysis of different training combinations.	R. Meeusen
DE GEUS Sebastiaan	Norandrosterone and norethiocholanolone concentration before and after submaximal standardized exercise.	R. Meeusen
DE SMEDT-JANS Katrien	The basic clinical evaluation (BCE) (Dart trainer®) promoted as preparticipation physical examination (PPE): inter-observer validity.	R. Meeusen
DECORDIER Marleen	The relationship between joint hypermobility and sports injuries in physical education students.	R. Meeusen
DIEUSSAERT Tom	In vivo Stretch-Shortening Cycle: an update	R. Meeusen
VAN AKEN Mariëlle	Gymnastic injuries: a retrospective study of Insurance claims over a 3 year period.	R. Meeusen

### *2003-2004*

STRUYF Filip	Cognitive-behavioural approach to chronic non-specific low back pain.	R. Meeusen
DUCHATEAU Patricia	Injuries as a result of physical activity and sports participation: registration an sports physian practices.	R. Meeusen
LALOO Wim	Effects of specific swim training on a 100 m all-out: Freestyle versus personal best stroke.	R. Meeusen
TITECA Karlien	The relationship between joint hypermobility and sports injuries in physical education students.	R. Meeusen
SMEDTS Mieke	The influence of warming-up and stretching on joint hypermobility in physical education students.	R. Meeusen
JORISSEN Kirsten	Sports injuries reported in emergency departments: data of the EHLASS study in Flanders.	R. Meeusen
SCHUFFELERS Kristel	Injuries in tennis: a review on epidemiology and risk factors.	R. Meeusen
STEVENS Annelies	Effects on different techniques of reduced training on performance and on the psychological profile in swimmers.	R. Meeusen
PEETERS Ilse	Injuries as a result of physical activity and sports participation: registration in sports physian practices.	R. Meeusen
MERTENS Kelly	Injuries as a result of physical activity and sports participation: registration in sports physian practices.	R. Meeusen

### 2004-2005

HANSEN Dominique	Physiological response to walking, cycling and arm cranking in myocardial infarction patients: implications for exercise prescription.	R. Meeusen
PASMANS Ralp	Position specificity of the Bangsbö 30 metre-sprint-test	R. Meeusen
MERTENS Tom	A prospective study for identification of intrinsic risk factors for the development of anterior knee pain in physical education students.	R. Meeusen
LIPPENS Gert	Overuse injury of the lower leg skin splints in the runner. A review of the literature.	R. Meeusen
KOEDOOT Eva	Neck-/shoulder and low back problems in horse riding.	R. Meeusen
JANSEN Donny	Techniques and effects of sports massage in professional cycling.	R. Meeusen
KUPPENS Kevin	Currents concepts in the prevention of subacromial impingement in competitive swimmers.	R. Meeusen
BUELINCKX Hanne	Prevention of ankle sprains in basketball: effectiveness of a 22-week sports specific balance training program on the incidence of ankle sprains and on balance field tests.	R. Meeusen
RYCKAERT Pascal	Medial tibial stress syndrome: a prospective study for possible intrinsic risk factors.	R. Meeusen
CLAES Inneke	Reliability of the Tergumed devices for the mobility and the maximal isometric strength of the lumbar spine.	R. Meeusen G. Stassijns

### 2005-2006

BARTHOLOMEUSEN Katrien	Is the Novice Runner at risk? A prospective cohort study of running injuries during a 10-week supervised training program.	R. Meeusen
DE GEEST Petra	Prospective risk factors for medial tibial stress syndrome.	R. Meeusen
DE MEULENAER Leen	Injuries in field hockey: a retrospective epidemiological study based on insurance statistics.	R. Meeusen
GEEROMS Anneleen	Rehabilitation of Chronic Low Back Pain: a review.	R. Meeusen
JACOBS Roel	Intrinsic risk factors in subjects with anterior knee pain.	R. Meeusen
NEIRYNCK Elke	Injuries from bicycle accidents. Analysis of bicycle injuries registered by an Insurance company during a period of one year.	R. Meeusen
SOMMERIJNS Elke	Low Back problems and Tennis. Tennis specific risk factors.	R. Meeusen
VERBEECK Kim	Effect of a 22-week sports specific balance training program on the postural sway by basketball players.	R. Meeusen
WOLFS Mysak	Low Back Problems and Tennis. Common, work-related and psychosocial risk factors.	R. Meeusen

### 2006-2007

BILLEN Katrien	Low Back problems and volleybal. Prevalence and common and sports specific risk factors.	R. Meeusen
GOEN Kirstin	A one year retrospective epidemiological study of horseback riding injuries. Data derived from insurance statistics.	R. Meeusen

TRAPPENIERS Nele	A retrospective epidemiological cohort study of injuries during track & field, triathlon and duathlon. Data derived from Insurance statistics.	R. Meeusen
AERTS Inne	Commuter Cycling: influences on health parameters in untrained people. Psychological status and blood parameters.	R. Meeusen
HIMPE Marjan	Prospective investigation for intrinsic risk factors of anterior knee pain in female recruits.	E. Witvrouw
KERSBERGEN Hans	The difference in treatment of professional and recreational athletes.	R. Meeusen

## **EINDVERHANDELINGEN GGS NEUROLOGISCHE REVALIDATIE**

### ***2000-2001***

ALLEGAERT Patsy	Bewegingsvoorstelling van gezonde bejaarden: een 'timing'-onderzoek.	Prof. Dr. E. Kerckhofs
MICHIELSEN Marc	Bewegingsvoorstelling van gezonde bejaarden: een 'timing'-onderzoek.	Prof. Dr. E. Kerckhofs

### ***2001-2002***

CALAERTS Wendy	Het rett syndroom: recent literatuuroverzicht, motorische evaluatie en case-study van drie patiënten aan de hand van de mot-test.	B. Huyberechts
GUNST Donald	Het medicinaal gebruik van cannabis bij multiple sclerose. Een enquête in MS-klinieken in Vlaanderen.	E. Kerckhofs
LEFEVRE Luc	Levenskwaliteit en coping van CVA. een correlatiestudie.	E. Kerckhofs
VOLDERS Anneleen	De invloed van depressie op het revalidatieproces bij CVA-patiënten. Statistische analyse van een databank.	E. Kerckhofs

### ***2002-2003***

CLAES Nathalie	Inschatten van valrisico door de Tinetti-test bij neurologische pathologie: Parkinson en CVA: een kritisch overzicht van de literatuur.	E. Kerckhofs
DE PAUW Sammy	De effectiviteit van casting, splinting en orthesen op dysfuncties van de bovenste ledematen bij kinderen met cerebral palsy.	B. Huyberechts
DE CEUNINCK Karen	Therapeutische effectiviteit van het Epley manoeuvre bij patiënten met benigne paroxysmale positionele vertigo.	E. Kerckhofs
MEERTEN Lesley	Behandeling van spastische cerebrale parese.	B. Huyberechts
MICHIELSEN Esther	Botuline toxine type A in de gangrevalidatie van spastische cerebral palsy kinderen review.	B. Huyberechts
MOENS Lies	De primair preventieve effecten van fysieke activiteit op het risico van CVA.	E. Kerckhofs
RAMON Tineke	De invloed van een preventiestrategie op de incidentie van hemiplegische schouderpijn.	E. Kerckhofs
VERHEYLEWEGHEN Fientje	Developmental Coordination Disorder (DCD)	L. De Meirleir
VYNCKE Peter, Igor	Neurologische etiologische factoren bij een idiopatische scoliose.	E. Kerckhofs

WYFFELS Barbara	Slaapstoornissen bij Parkinson patiënten.	E. Kerckhofs
-----------------	---	--------------

### *2005-2006*

DE KEGEL Alexandra BINNEMANS Brit	Literatuurstudie: botuline toxine type A en kinesitherapie bij kinderen met cerebrale parese.	B. Huyberechts
SAEYS Wim	Motorische voorstelling bij CVA.	M. Michielsen
STRYKOVA Vera	Valproblematiek bij Parkinson patiënten.	E. Kerckhofs

### *2006-2007*

ATANESYAN Hacob	Clinical anatomy of the limbic system and a methodological proposal for enhancing the 3D insight in brain dissection.	P. Van Roy
HAVERMANS Elisabeth	Actueel overzicht van de verschillende behandelingsmethoden bij kinderen met CP.	B. Huyberechts
OOMS Nathalie	Actueel overzicht van de verschillende behandelingsmethoden bij kinderen met CP.	B. Huyberechts
