Objectives of the call
The objective of this call is to stimulate the mobility of staff. This can be VUB personnel travelling South, or Southern staff travelling to the VUB or to a VUB organized event in Belgium. However, the mobility should contribute to the capacity building within VUB with regard to university development cooperation (in accordance with the Global Minds objectives). As such, a mobility can take place in the framework of:

- Sharing knowledge (ex: guest lectures, trainings,...)
- Joint curriculum development
- Recruitment
- Exploring, initiating, intensifying collaboration and (new) partnerships
- Joint research/joint PhD
- Dissemination of research results
- Joint research workshops (group mobility)
- The development of project proposals

However, not all mobilities are eligible. For example, the following proposals will not be taken into consideration:

- Fieldwork for research
- Passive participation at a conference

Each mobility should contribute to an overall objective and have an added value for both institutions. The mobility must have a development relevance and tangible results should be reached at the end of the mobility. For a group mobility, a specific motivation will have to be provided.

This project is supported by VLIR-UOS. This call reaches out to all VUB community members, to propose scientific, educational and administrative oriented initiatives.
| **Budget** | **Individual mobility:** Max 2,500 € per person  
**Group mobility:** up to a maximum of 5 people  
(max. 2,500 € per person – so in case 3 people travel, a maximum of 7,500 € can be requested)  
These expenses have to take into account the VLIR-UOS financial regulations.  
The call awards a maximum of 2,500 € to support an individual mobility. Group mobilities can go up to a maximum of 5 people with a support of maximum 2,500 € per person.  
This budget covers the flight (economy ticket), the per diem of the stay (as per VLIR-UOS regulations, with a maximum of 7 nights, not travel nights), hotel cost (as per VLIR-UOS regulations, with a maximum of 7 nights), insurance and transport from and to the airport in Belgium (public transport, taxi or own vehicle in which case, VUB’s compensation/km applies). Costs made for visa or malaria medication are also refundable.  
Remarks:  
- The requested and approved budget will be made fully available on a specific PKC provided by IRMO, with the promotor as full delegate. As such, the promotor will have full access to the budget, and will be responsible for all expenses and payments. Costs which are not eligible by VLIR-UOS regulations, but made by the promotor, will be reclaimed afterwards.  
A maximum of 2 mobilities a year per staff member can be funded. First time applications of prof A will have priority over an application for a second mobility by prof B. |

Selection criteria

The selection is a competitive process organised by the RIB and based on the assessment of the quality of the proposal from an academic and organisational point of view.

Overall, it will be assessed if the project is in line with the Global Minds goals:

- to strengthen and deepen the capacity and knowledge of VUB in development cooperation and to sustain, improve and expand its collaboration with partners in the South (developing countries);
- to integrate development issues into education, research and administrative processes
- to raise awareness about global challenges

We are aiming at proposals that are development relevant. By this we mean the extent to which the proposals’ objectives are consistent with beneficiaries’ requirements, country needs, synergy opportunities, global priorities (SDG’s) and partners’ and donors’ policies.

The selection is primarily based on the following criteria:

1. **Quality**: Quality of the proposal (content, form, …).
2. **Effectiveness**: The extent to which the proposal’s objectives are expected to be achieved, taking into account the planned activities and the connected deliverables/results (activities -> deliverables -> objectives)
3. **Efficiency**: A measure of how economically resources/inputs (funds, expertise, time, etc.) are converted to deliverables/results. “Value for Money”
4. **Impact**: Potential positive and negative effects produced by the activity, directly or indirectly, intended or unintended, for the applicant, VUB, the society, sector and, if relevant, for the local partner.
5. **Sustainability/Strategic Relevance**: The continuation of benefits and/or cooperation after the activities have been completed. The developmental relevance. The contribution to the capacity building of the VUB in the field of university development cooperation.

For more information about project formulation and differentiating results levels, please see the table below and the **Guide to the formulation of VLIR-UOS projects**.
